PROFESSIONAL SUMMARY

Dynamic and results-driven Technical Project Manager with years of experience leading cross-functional teams in successfully delivering complex projects across diverse industries. Proven expertise in project governance, strategic planning, and stakeholder management. Strong communicator with a solid understanding of technical concepts, capable of translating business objectives into actionable project plans. Proficient in project management tools and committed to successfully completing projects while aligning with organizational goals.

PROFESSIONAL EXPERIENCE

External Consultant, Watauga Housing Council | Philadelphia, PA 2023 – 2024
Technical Project Manager

- Technical Project Management:** Led the development of a GIS web application, collaborating closely with technical teams to ensure the solution met business goals. Managed project documentation and provided ongoing support through successful handoffs to business owners.
- Project Governance & Compliance:** Managed a multidisciplinary team through the development and execution of a multi-phase project plan, ensuring adherence to project governance standards and compliance with county and state regulations.
- Stakeholder Management:** Acted as the primary point of contact for stakeholders, regularly communicating project progress, risks, and dependencies. Adjusted project scope based on data-driven insights and stakeholder feedback.
- Data-driven Decision-making & Analytical Leadership:** Leveraged advanced statistical analysis and spatial modeling using R to identify optimal sites for affordable housing development. Translated complex data into actionable insights, driving strategic decision-making and ensuring project outcomes aligned with broader housing policy objectives.

Miller Legg | Ft. Lauderdale, FL 2020 – Present
Project Manager & Landscape Designer II

- Technical Leadership:** Applied data analysis skills to optimize design outcomes, driving project success through informed decision-making and effective resource allocation.
- Strategic Planning & Execution:** Developed and executed strategic master plans that aligned project goals with client vision and stakeholder interests. Ensured cohesive project execution through detailed planning and resource management.
- Governance & Compliance:** Engaged with local governments and other stakeholders to ensure project approvals met compliance standards. Developed documentation to support project governance processes.

Florida Museum of Natural History | Gainesville, FL 2016 – 2018
Technical Project Manager & Specimen Technician

- Technical Project Management & Analysis:** Managed specimen photography projects, ensuring high-quality outputs through meticulous attention to detail and data management.
- Stakeholder Engagement:** Collaborated with researchers and authors to support publication efforts, contributing to high-impact research outputs.
- Data Precision & Analysis:** Conducted detailed data analysis and research and captured and edited high-quality images.
